Democratic success on national issues depends largely upon national party harmony. The outlook for for the Florida pines too are so high this is very encouraging. New York has instructed for Bryan. So has Connecticut and Indiana. The doubtful states are now in full accord with the majority of the Democrats of the nation, and with a united party fighting trusts, imperialism and advocating true Democratic principles, the party is bound to win.

A well known negro agitator named Fortune, says the Pensacola News, in addressing a meeting of negroes in Brooklyn, N. Y., recently, declared that there were 200,-000 negroes with Grant's army when Lee surrendered, and when the great crisis comes in this country, as it will come, there will be 2,000,000 fighting negroes who will be anxious to get at the throats of the white men of the south. It is quite safe to affirm that not a dozen respectable negroes in the south would in any manner endorse or approve the crazy language of this unprincipled adventurer, but it should be recognized as the solemn duty of the negroes of the south, especially of their newspapers, to promptly repudiate the fellow and get it done. his incendiary delirium.

Move Forward Educationally.

Before the state convention met, Mr. McBeath, candidate for state superinhimself as follows:

Should I be chosen for this responsible position, it would be my aim and my amto tear down, but to build up; to create a healthier public school sentiment; to proour teachers, and to build up here in Son. Florida a public school system second to none in the Union. I would try to do what Mr. Sheats has not done since I left his office-move forward educationally, and, as far as possible, lead the people with me. I would not seek to drive, I would endeavor to lead. We have had enough of ferment and turmoil; we need an "era of good feeling" in order that our educational system may be felt to grow and take root.

There is a great educational work to be done in Florida. The timber is ripe for a strong level-headed leader with power to win and hold the respect and confidence of the people. I may be mistaken, but I believe I could, not to do this work myself, but by enlisting public sentiment,

I would have no friends to reward, no enemies to punish, no favors to recipocate, no wrongs nor insults to avenge. I would be dominated by one purpose only -the desire to do what, in my power lay, to upbuild and advance the educational interests of the state.

Jacksonville Times-Union and Citizen.

Judge Locke entered a decision recent-Democrats of Maryland, New York ly in the United States court in the case and Indiana, indicate as much, but of the war prize vessel, the Spanish cruiser Panama, and cargo, on the claims of the officers and crew of the American war vessel Mangrove. The Panama was captured off the port of Havana, April 25th, 1898, by the Mangrove, which mounted one 6-pounder at the time. It was claimed that the capturing vessel being of inferior force to the Panama, the officers and men were entitled to the proceeds of the sale of vessel and cargo, amounting to about \$45,000.

The interest of the case centered about the conflicting claims of the government vessels, the New York, the Indiana and the Wilmington, which were said to have been within signaling distance at the time of the capture, or within such distance as to have been able to have rendered assistance in the capture if such assistance had been needed. The claims of the Mangrove were that it had been alone in the capture, and that to it should be awarded the credit and profits of the capture. The interest and decision of the case, therefore, centered on the question of what is signaling distance as used in the federal laws bearing upon the subject.

After considering various authorities on the matter, Judge Locke, in his opinion, decided that the Mangrove was the sole capturing vessel, that the prize was of superior or equal force with the Mangrove, and that no other vessel was entitled to share in the proceeds of the capture, and accordingly an order of distribution was entered.

ROCHESTER LAMP was made there have been many "like" or "as good as" it placed upon the market. Some were even said to be "improvements" on it. One by one they fall by the wayside, for experience proves that there is only one lamp that is really better, and we make that, too,

In it we embody all that is really worth having in a lamp, both as to quality and style. Don't forget, every genuine New Rochester has the name on the lamp.

We can fill every lamp want. No matter whether you want a new lamp or stove, an old one repaired or refinished, a vase mounted or other make of lamp transformed into a NEW ROCHESTER, we can do it. Let us send you literature on the subject.
